CONFERENCE TITLE:

Undoing the Ties that Bind: Integrating Trauma-Informed Care to Facilitate Recovery from Addiction

CONFERENCE THEME:

This full-day conference focuses on the intersectionality of trauma, addiction, and other co-occurring conditions. Behavioral health and addiction professionals will address the epidemiology, prevention, and treatment of trauma and addictive disorders as well as discuss multicultural and ethical considerations when developing trauma-informed addiction treatment. The conference will conclude with a brief Q&A discussion between audience members and a panel of conference organizers and presenters.
